# Thermal sight PULSAR Thermion 2 XP50 Pro

## TECHNICAL INFORMATIONS

- Day and night usable riflescope resistant to recoil of 6000 Joules of .375H&H, Caliber 12 and 9.3x64 calibers
- 10 crosshair shapes in 9 color modes
- Optical magnification from 1x to 16x and digital zoom up to 8x
- Range of 1800 meters for human presence
- Quick start option to save battery
- WiFi range 15 meters
- PIP function - picture in picture
- 5 adjustable zeroing profiles including 10 distance coordinates
- **Sensor** : 640 x 480 pixels
- Wi fi 2,4 / 5 GHz, 802.11 b/g/n/ac
- **Memory capacity** : 16 Go
- **Dimensions** : 412 x 785 x 83 mm
- **Operating temperature ranges** : from -25°C to +50°C
- **Protection class** : IPX 7, Resistant to impacts and recoil up to max. 6000 joules
- **Weight** : 900 g
- **Colours** : Available in black
- **Material** : metal
- **Autonomous (at T° = 22°C)** : 10 hours
- **Battery type** : Li-ion - IPS7/ 4900 mAh/
